

## Story UFC-304: No Account Sign Up

The following document will go over the design of signing up after using no-account, as outlined in Story ticket UFC-304.

### Acceptance Criteria

For reference, this ticket primarily addresses acceptance criteria 16 of [Epic UFC-145: Offline First](#).

### Design Brainstorming

A significant portion of the design brainstorming for this story happened in [Phase 4: Going Fully Offline](#). See the "Signing Up after No Account" section.

For reference, here's a list of tasks that we'll need to complete:

- Add a Sign Up button to the app navigation on desktop.
- Add a Sign Up button in place of the old "User Account" section in the Settings (on mobile and desktop).
  - We'll just use a button above the current Settings Navigation; no need to create a whole page section just for this, since the button will redirect to a separate page for the Sign Up form.
- Add a small snippet to the Welcome Step message on how signing up for an account will migrate your data over.
- Build the in-app signup page (with a message explaining the advantages of signing up).
- Build the new sagas for the in-app signup page that create a new user and migrate their data.

### Component Breakdown

#### Atoms

- [modification] OutlineButton (add the new color scheme)

#### Molecules

- N/A

## Organisms

- NoAccountSignUpForm

## Scenes

- NoAccountSignUp

## Tasks

- Build the thing.
