

Story UFC-182: Login

The following document will go over the design of login, as outlined in Story ticket UFC-182.

Acceptance Criteria

- I can click on a button on the landing page to go to the sign in form.
- I can fill in the sign in form with my information to login to the app.
- I am logged into the app when my credentials are legit.
- I can see something indicating an error when I fail to login.
- I can see a loading indicator while waiting to be logged in.
- The form looks good on mobile.
- The form looks good on desktop.
- My cursor is focused into the first input (email) on page load.

Component Breakdown

Scenes

- Login (auth card + secondary auth form + logo)

Tasks

- Build the login form.
