

## Story UFC-253: Current Net Worth

The following document will go over the design of the current net worth indicator, as outlined in Story ticket UFC-253.

### Acceptance Criteria

For reference, the following are the acceptance criteria for this ticket:

- On desktop, I want to see my current net worth at all times.

### Design Brainstorming

Ya, sorry, but this really doesn't need much design. We already have the selectors in place to select the net worth within in a date range, so, at most, we have to create a new hook for combining them together to get the right date range.

And it's not like the UI is anything special.

### Component Breakdown

#### Atoms

- N/A

#### Molecules

- CurrentNetWorthIndicator (TextField)

#### Organisms

- [modification] AppNavigation (add the CurrentNetWorthIndicator)

#### Scenes

- N/A

#### Tasks

- Build the NetWorthIndicator and add it to the desktop AppNavigation.
