

Login/Sign Up Form

Inspiration

- I quite like this. Having this kind of overlaid form is nice. [Tailwind UI](#) [Tailwind UI](#)
[redacted]

Brainstorming

- I quite like the first design with the overlapping forms.
 - However, the ones where 3/4 of the screen is the form and the last 1/4 is the opposite action is also nice.
- I'm still debating between centered vs left aligned header text.
 - I think I like left aligned better.
- I think a nice underline/overline on the header text would be nice.
 - I think an overline is a better flourish for an overall app theme.
- Still need to decide on outline vs colored inputs.
 - I think I like colored inputs better.
- Flat or heavy colored drop shadow on primary action?
 - I wanna try out the colored drop shadows.
